RECAP OF JUNE 16TH MEETING

ATTENDANCE: 15. **GUESTS:** Assistance Governor Mary Green of the Canandaigua Rotary Club and Michelle Rohring, Senior Director of Nursing at FLACRA, our presenter. **50/50:** Kristine Beniamino-Scherer.

PROGRAM: Michelle Rohring provided an overview of FLACRA's Opioid Treatment Program and services, explaining that methadone is a synthetic opioid used to treat opioid use disorder by managing withdrawal symptoms and reducing cravings. She detailed how the program has expanded to include mental health services and primary care assistance, with clinics now offering comprehensive care for both adults and children. Michelle highlighted the program's success in helping patients lead productive lives, including successfully weaning several people off methadone in the past year, and emphasized the need for greater societal understanding and support for individuals with opioid use disorders. The Geneva OTP Outpatient program is located at 116 Lewis St. More outpatient clinics will be opening around our area in the near future.
